

Automotive - Built-in Refrigerators

Frigocat

The built-in series for commercial vehicles and coaches meets the most diverse market requirements in terms of size, finish and ease of use.

Frigocat is a small sized thermoelectric model. It has a capacity of 7 litres only, and can be fitted in the narrowest available space, thus being ideal for use in tractors, vans, small vehicles and cars. As opposed to most other thermoelectric systems on the market, Frigocat is a real refrigerator capable of reaching a temperature of 2°C even with an external temperature of 32°C. The Frigocat portable fridge is compact but designed to hold 2x2 litres bottles. Fixing kit as standard.

Technical features

Capacity (L)	7	Dimensions (HxWxD) (mm)	430x160x276
Net weight (kg)	6	Consumption (kWh/24h)	1,4
Voltage (V)	DC 12, DC 24	Power absorption (W)	50
Refrigerant gas	n/a	Certifications	CE
