

Adventure - Portable Refrigerators - Steel

TB118 DD Steel Black

The Steel range of portable refrigerators is designed to withstand extreme weather and the rugged conditions you face when off-road driving.

The double door - double thermostat version of the Steel refrigerators allows to set two different temperatures in the two different cabinets. The handles are sturdy (granting safety during transport and an easy fix) and retractable (reducing the in-vehicle footprint). In order to grant an easy use in small spaces the lids are removable.

The evolution of the Steel 2022 range includes retractable handles with a new design for improved portability, corner bumpers, even more resistant snap closures with a hole for the integrated security padlock, and new reinforced hinges with four anchor points. Also completely new is the power and temperature control panel with integrated Bluetooth connectivity for performance monitoring via smartphone. The new black matte finish completely transforms the aesthetics of the entire line.

Technical features

Capacity (L)	107	Dimensions (HxWxD) (mm)	744x810x492
Net weight (kg)	35,5	Consumption (kWh/24h)	0,286
Voltage (V)	DC 12, DC 24	Power absorption (W)	85
Refrigerant gas	R134a	Climate class	SN-T
Temperature range (°C)	-18 +10	Certifications	CB, CE, E-Mark, EMC
