

Adventure

TB13

The Special line refrigerators allow maximum use of all cabin space. They easily adapt and can be installed in the smallest spaces of trucks, motorhomes and vans.

Small on the outside but very spacious inside thanks to the brand new SECOP BD1.4 MICRO compressor. Made with top-quality materials, TB13 is designed to be installed, thanks to its fixing plate*, even in the smallest spaces, i.e. between the two front seats. The new compressor makes this “mini” refrigerator incredibly performing, with very low power consumption.

*: Fixing plate is an accessory to be ordered separately.

Technical features

Capacity (L)	13	Dimensions (HxWxD) (mm)	290x221x536
Net weight (kg)	11	Consumption (kWh/24h)	0,240
