

Adventure - Portable Refrigerators - Steel

TB130 Steel Black

The Steel range of portable refrigerators is designed to withstand extreme weather and the rugged conditions you face when-off-road driving.

The TB130 Steel model is characterized by its large and flexible load capacity. The thick insulation (50 mm), common to all models in the STEEL line, allows low electricity consumption.

The evolution of the Steel 2022 range includes retractable handles with a new design for improved portability, corner bumpers, even more resistant snap closures with a hole for the integrated security padlock, and new reinforced hinges with four anchor points. Also completely new is the power and temperature control panel with integrated Bluetooth connectivity for performance monitoring via smartphone. The new black matte finish completely transforms the aesthetics of the entire line.

Technical features

Capacity (L)	124	Dimensions (HxWxD) (mm)	744x810x492
Net weight (kg)	34	Consumption (kWh/24h)	0,282
Voltage (V)	DC 12, DC 24	Power absorption (W)	85
Refrigerant gas	R134a	Climate class	SN-T
Temperature range (°C)	-18 +10	Internal light	Yes
Bluetooth	Yes	Battery protection	Yes
Certifications	CB, CE, E-Mark, EMC
