

Adventure - Portable Refrigerators - Steel

TB74 Steel Black

The Steel range of portable refrigerators is designed to withstand extreme weather and the rugged conditions you face when off-road driving.

The TB74 Steel model is characterized by its large and flexible load capacity. The thick insulation (50 mm), common to all models in the STEEL line, allows low electricity consumption.

The evolution of the Steel 2022 range includes retractable handles with a new design for improved portability, corner bumpers, even more resistant snap closures with a hole for the integrated security padlock, and new reinforced hinges with four anchor points. The power and temperature control panel is also completely new, allowing for easy and intuitive performance monitoring. The new black matte finish completely transforms the aesthetics of the entire line.

Technical features

Group	Steel	Certifications	CB, CE, E-Mark, EMC
Climate class	SN-T	Refrigerant gas	R134a
Temperature range (°C)	-18 +10	Voltage (V)	DC 12, DC 24
Consumption (kWh/24h)	0,231	Power absorption (W)	85
Dimensions (HxWxD) (in)	19.6x31.9x19.4	Net weight (lbs)	61.7
Capacity (cu ft)	2.5
